Education

Université de Sherbrooke

Aug 2022 — Dec 2026

Bachelor's Degree in Computer Engineering — Coop Program

Professional Experience

Business Analyst Intern

Sherbrooke, QC

Wolters Kluwer, DXG — TAA Canada

Summer 2026

- Analyze needs and facilitate brainstorming sessions, then design innovative solutions in collaboration with architecture and user experience teams
- Write specifications, break down user stories in an Agile context, and support the development team in validating test plans

Frontend Developer Intern

Sherbrooke, QC

Wolters Kluwer, DXG — TAA Canada

Fall 2025

- Develop and maintain frontend features with Angular and RxJS, collaborating with the backend team for API integration
- Implement unit tests with Wallaby.js in a VS Code environment integrating GitHub Copilot

Full-Stack Developer Intern

Québec, QC

Boréalais, Product Development Team

Winter 2025

- Develop and maintain a web application in JavaScript/TypeScript and Node.js in a Docker environment, with automated tests via Cypress
- Migrate and update a MongoDB database while managing Mongoose breaking changes

Analyst/Developer Intern

Sherbrooke, QC

Ville de Sherbrooke, Information Technology Services

Fall 2023 / Summer 2024

- Analyze and execute projects within the Maximo application, gathering and analyzing needs to design software solutions
- Design interactive BIRT reports for data analysis and visualization

Projects

Atlas — Major Design Capstone Project

Summer 2025 / Winter 2026

- Design and development of a full-stack web application (frontend in Vite + Vue.js), fully containerized via Docker
- Image processing and analysis via Python libraries

Involvement and Leadership

- **Member of the Class of 68 Student Committee** (President, IT Representative, Secretary) — Faculty of Engineering, Université de Sherbrooke, 2022 — 2026
- **Programming Competitions** — Coveo Blitz (2024/2025, 10-hour bot building, team of 4) and NorthSec CTF (2023/2024, cybersecurity learning)

Skills

Languages: French, English

Technologies: C++, Python, Java, SQL, JavaScript/TypeScript, Vue.js, React, Visual Studio, IntelliJ, Cursor, Docker, Git, Atlassian, Office, AI

Soft Skills: Communication, Organization, Software Development, Leadership, Resourcefulness
